Version 3.50.31

5.0 Keyboard

Ctrl + C	Copies the selected fields to the clipboard.
Ctrl + X	Cut and copies the selected fields to the clipboard.
Ctrl + V	Insert text from clipboard
Ctrl + Delete	Delete selected fields

Ctrl + C copies the selected area to the clipboard. **Ctrl+X** cuts the selected area and copies it to the clipboard. If no area is selected, the corresponding Greek letter is written.

Ctrl+V writes the text from the clipboard to the cursor position if, immediately before a text with **Ctrl+C** / **Ctrl+X** was copied, otherwise the corresponding Greek letter written.

Version 3.50

Worksheet

The worksheet format and size have been changed.

To improve the type face, the cell format has been changed from 1 / 1.33 (width / height) to 1 / 1.50.

Also the worksheet now has a fixed size of 256 x 256 cells. The *Options* menu to change the size between "72 x 72", "144 x 144" and "108 x 48" is removed.

File format

The worksheets data saved in a new file format takes up less disk space. RedCrab V3.50 can read old and new formats. RedCrab's older versions cannot read data from files stored in version 3.5 or higher. The new file extension is *.rcc

Printer

The output to the printer has been revised and its functions expanded.

The right picture shows the new dialog box. By default, 64 columns per page are printed. The number of rows depends on the size of the page. By entering a different value, you can increase or decrease the printer output.

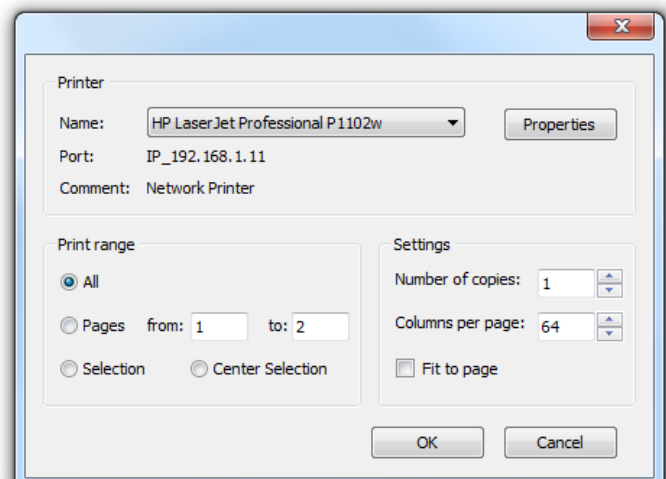

With the button *All* you print the working area of the worksheet from position (1.1). If necessary, the worksheet is split into several pages. The layout of the pages is shown in the following table.

If the button *Page* is selected, individual pages can be printed.

With the button *Selection* you can print selected area of the worksheets. The print-out is positioned on the top of the page. *Center Selection* prints the selected area at the center of the page.

With the check box *Fit to page* the print-out is adjusted to the page size. The *Columns per Page* setting is ignoring. A small selected area can so enlarged to the width or height of the page. Similarly, a print-out what normally occupied several pages are reduced to one page.

Page 1	Page 2	Page 3
Column 1..64 Row 1..68	Column 65..128 Row 1..68	Column 129..192 Row 1..68
Page 4	Page 5	Page 6

Printing problems of result boxes and images with transparent backgrounds have been fixed.
