## **Congratulations!**

I'm confident that you'll love using PLR Dashboard. This useful tool really comes in handy when trying to organize and sift through all of the PLR articles, eBooks, and more that are stored on your computer.

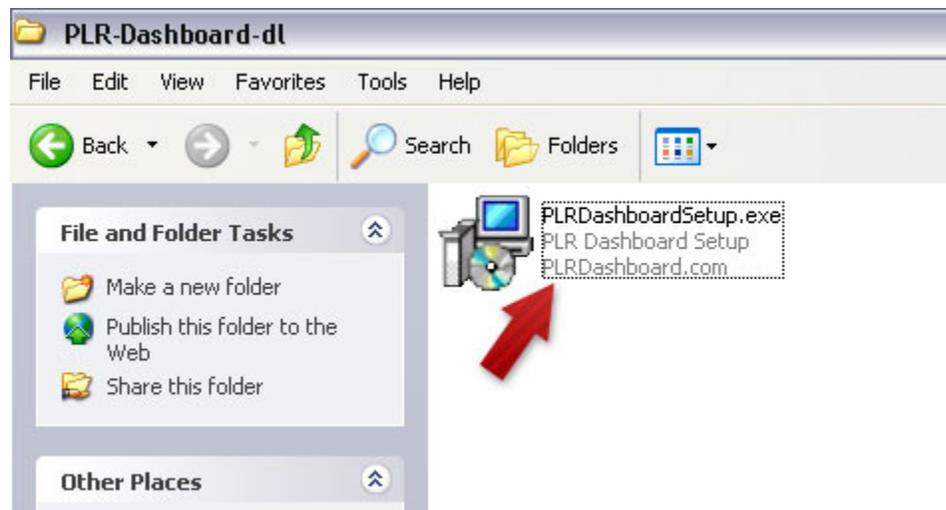

This quick start guide will get you on the fast track to using PLR Dashboard!

Enjoy!

*Jason Bradley*

## **1. PLR Dashboard Installation**

PLR Dashboard is quick and easy to install. Simply browse to the location on your computer where you downloaded the program and click on the file named **PLRDashboardSetup.exe**. The software will then install onto your computer.

**Note:** PLR Dashboard is a Windows based program, so if you're using a Mac I apologize. ☹

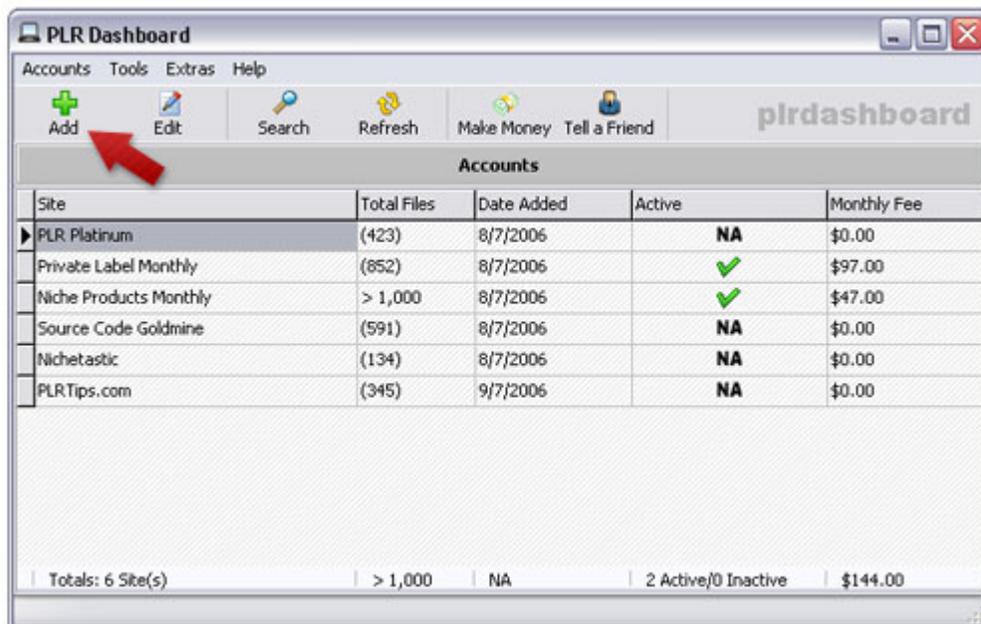

## **2. Adding Content Sources and Memberships**

**Earn huge 70% commissions (\$62.11 per sale!)**

After installing PLR Dashboard, simply click on the PLR Dashboard icon to start the program.

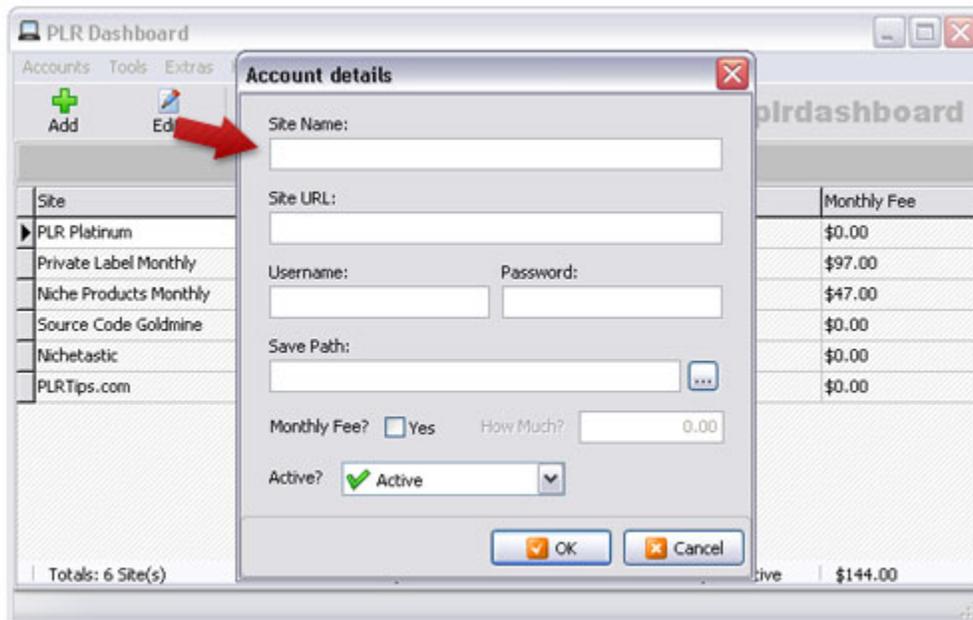

Once the program opens, you can start adding your PLR content sources and membership records to the dashboard panel. To begin, simply click the “Add” button (I’ve already added a few records as an example in the screenshot below).

Next, simply fill in the details. Add the name of the content source, the membership URL and login details (if applicable), the location on your computer where that membership content is stored, if there is a monthly fee, and whether that membership is currently active or not. You can use the “NA” option for non-

**Earn huge 70% commissions (\$62.11 per sale!)**

memberships (one time purchases). Once you're done, simply click "OK" and your first record will be stored.

If you ever want to edit or update a record, you can click the "Edit" button or simply double click on the detail you would like to change.

To remove a content source, simply highlight the record and choose "Accounts" and then "Remove".

### **3. Using the Master Password Feature**

If you're saving sensitive details such as login usernames and passwords to PLR Dashboard, then it might be a good idea to protect that data from others who may have access to your computer.

PLR Dashboard has a built in master password feature which you can access by clicking "Tools" and then "Master Password".

When setting the password initially, simply leave the old password field blank, then type in your desired password twice (once in the "New Password" field and again in the "Confirm Password" area).

Close PLR Dashboard and reopen, and your master password will be activated.

## [Earn huge 70% commissions \(\\$62.11 per sale!\)](#)

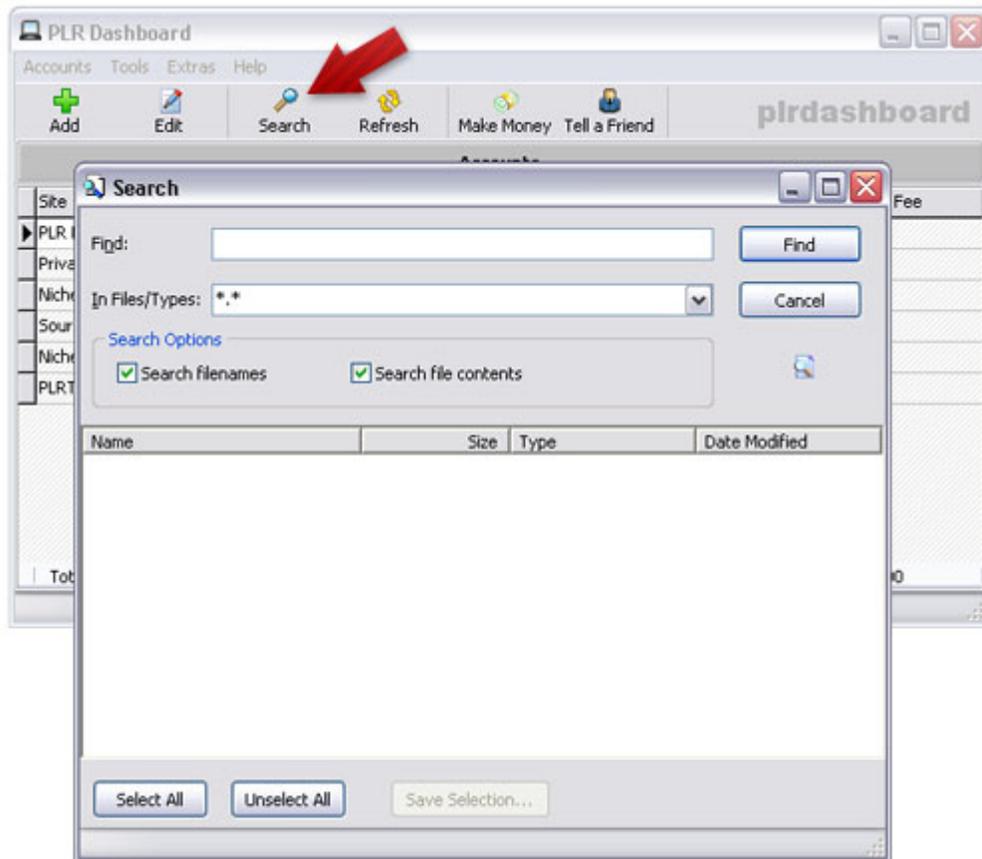

To change your password, simply click on “Tools” and then “Master Password”. Type in your old password, followed by the new.

If you wish to disable the master password feature, simply type in your old password, then leave the “New Password” and “Confirm Password” fields blank. The next time PLR Dashboard is used, no password will be needed.

### **4. Using the Content Search Function**

PLR Dashboard has a built in content search function that will allow you to quickly and easily locate private label rights content on your computer by keyword and/or filetype. This is a major time saver!

To use the search feature, simply click the “Search” button.

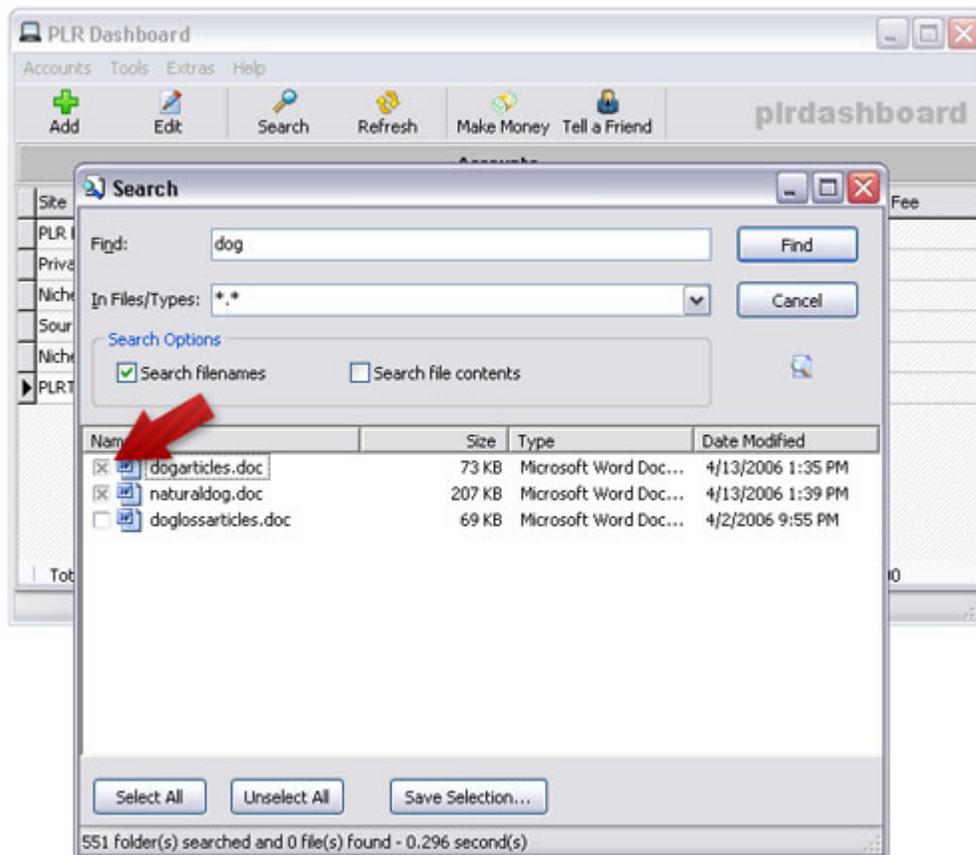

After the pop up appears, simply type in your keyword, select the filetype you’re searching for from the dropdown menu (if left alone, the search will return all filetypes), choose from the search options (searching for keyword in the filename and/or file contents), and click “Find”!

## Earn huge 70% commissions (\$62.11 per sale!)

Once PLR Dashboard has finished with the search, it will return all results found. Simply check all files that you want to use for your project, and then save to another location on your computer.

This feature allows you quickly create project folders and easily keep track of which articles you used for them.

**Note:** An unchanged copy of each article you select will still be saved in its original location on your computer.

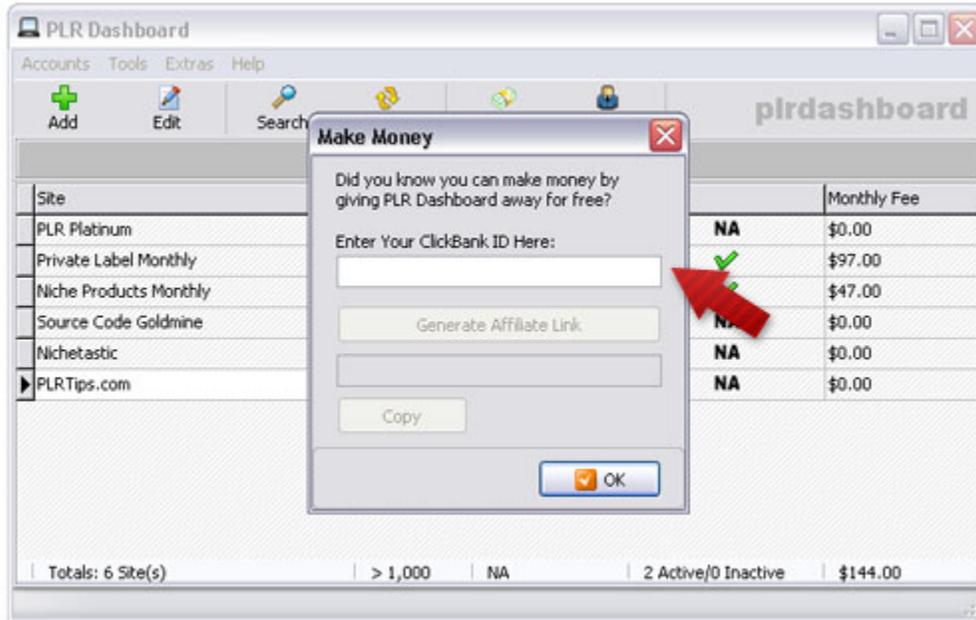

## 5. Using the Make Money Feature

Did you know you can earn 70% commissions for simply telling others about this cool little program? Whenever you send a visitor to our site through your affiliate link and they purchase our special private label rights audio package, you earn \$62.11!

To grab your affiliate link for PLR Dashboard, simply click the “Make Money” button, enter your ClickBank ID, then copy and paste the link!

**Earn huge 70% commissions (\$62.11 per sale!)**

## **6. Using the Tell a Friend Feature**

PLR Dashboard's powerful built-in "Tell a Friend" module makes earning commissions a breeze! Simply click the "Tell a Friend" button, type in your name, your friend's name, your friend's email address, and your ClickBank ID. An email is instantly created for you with your special referral link already inserted! All you have to do is press the OK button and the email will load up in your default email client, ready to send!

Don't have a ClickBank affiliate ID yet? [Click here to get one free.](#)

## **7. Using the Backup and Restore Feature**

Lastly, PLR Dashboard has a built-in backup and restore feature so you never have to worry about losing your records. Simply click "Tools" to access these features, and then choose either the Backup or Restore function.
